# EEMUA 159 — Tank Assessment

## Rope Access

---

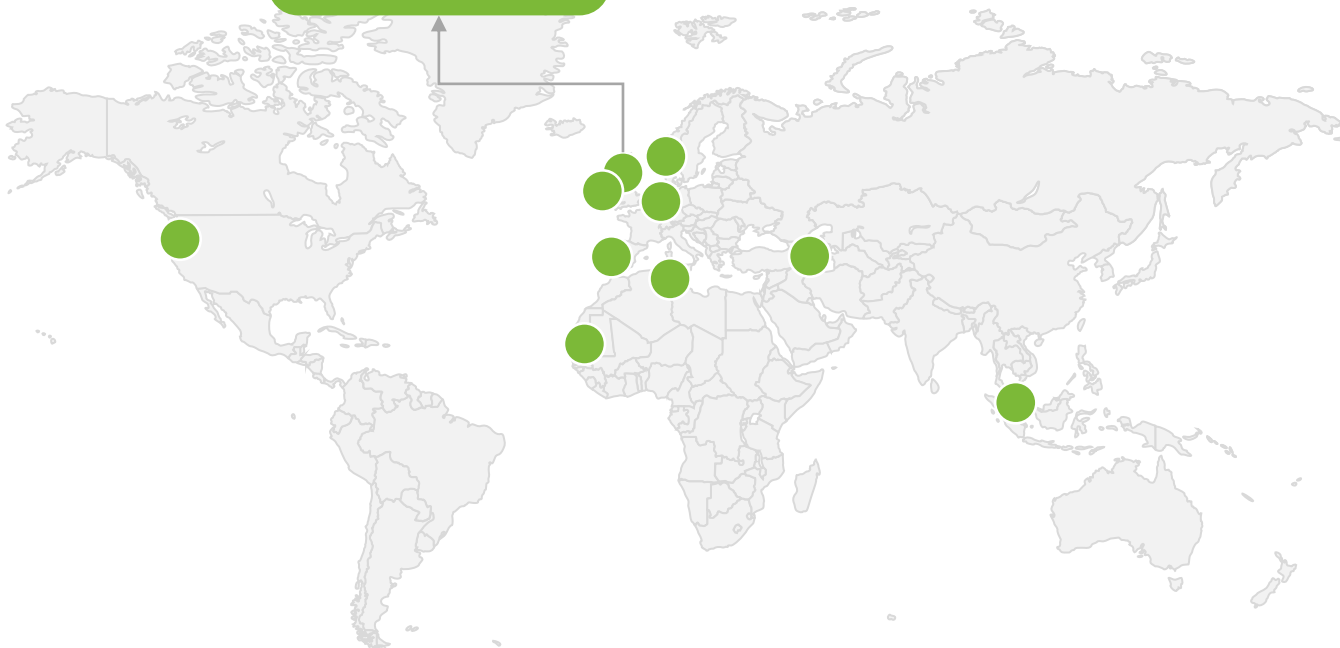

C&D Access, together with our partner company Raptor UAS, have incorporated safer, more cost effective methods to carry out tank inspections in accordance with EEMUA 159 and API 653, combining rope access with drone technology.

## Faster turn around.

---

We offer EEMUA 159 Tank Assessments including NDT, dimensional survey, visual inspection, thermal inspection and remnant life calculation in a fraction of time compare to conventional means of access.
